

**Gaucher
Mentor Program**
a resource for families and
individuals with
Gaucher disease

You are never alone.

Our Gaucher Mentors are always there for you and your family.

The National Gaucher Foundation (NGF) established the Gaucher Mentor Program as a service to assist the Gaucher Community in navigating the maze of systems and programs which families and individuals face in dealing with Gaucher disease.

The Program included individuals or their family members who have Gaucher disease and the experiences, knowledge and commitment of people dedicated to helping others. Our mentors have volunteered to share their collective wealth of knowledge, resources and personal experience with others to help ease some of the stress and uncertainty that comes with being newly diagnosed.

For the previously diagnosed and newly diagnosed, Mentors provide an avenue for individuals to find answers to their questions, resources they can utilize for their families and comfort in knowing that someone is always there to help them.

Mentors are dedicated to helping change the lives of others by ensuring that no individual with Gaucher disease will ever have to be alone in facing the myriad issues surrounding Gaucher disease. From insurance, to evaluations and management of Gaucher disease, to family and child-related issues and coping with a chronic disease, these knowledgeable and caring Gaucher Mentors, collectively, have dealt with every topic.

For more information or help selecting a Mentor, visit our website at www.gaucherdisease.org and click on "Programs", or contact the National Gaucher Foundation via email at ngf@gaucherdisease.org or call us at 1-800-504-3189.

Let us know how we can help you.
